

John Pesantez

Full-Stack Software Developer

London, United Kingdom

[+44 7514764819](tel:+447514764819) • pesjohnmore@gmail.com • [Portfolio](#)

PROFESSIONAL PROFILE

Full-Stack Software Developer with over three years of commercial experience developing and maintaining business platforms, web applications and mobile applications used by 1,000+ users across the UK. Experienced in PHP, SQL Server, JavaScript, TypeScript, React Native, PostgreSQL and REST API integration, with experience across backend development, databases, frontend applications and mobile development. Strong problem-solving and debugging skills, with experience improving application performance, developing new features and translating business requirements into reliable technical solutions.

WORK EXPERIENCE

WEB DEVELOPER | PRESTIGE NURSING & CARE

07/2024 – Present

- Develop and maintain a large-scale business platform and connected web/mobile applications used by 1,000+ users across the UK, using PHP, SQL Server, JavaScript, TypeScript, HTML and CSS.
- Develop features across CRM, care management, incident reporting, rostering, LMS, documentation and third-party API integrations, supporting operational workflows across head office and branch teams.
- Work with internal stakeholders to understand requirements, investigate issues and deliver features and improvements within agreed timescales.
- Redesigned and developed the carer portal, implementing features including multi-factor authentication (MFA), body maps, geofencing, task management, LMS functionality and responsive improvements.
- Improved application performance across multiple areas, reducing page response times by up to 80% through SQL query optimisation, more efficient data loading and lazy loading.
- Developed client portal functionality for digital document onboarding and independently developed a React Native/TypeScript mobile application prototype with a PostgreSQL backend, replacing manual processes and demonstrating potential improvements to carers' day-to-day workflows.

FREELANCE WEB DEVELOPER | SELF-EMPLOYED (CONTRACTED TO THE ACCOUNTANCY FRANCHISE)

07/2024 – 12/2025

- Provided web development and technical support alongside my professional role, responding to business requirements and resolving technical issues.
- Managed and maintained 40+ franchisee WordPress websites, carrying out updates, enhancements, troubleshooting and technical improvements.
- Worked directly with stakeholders to understand requirements, prioritise requests and deliver solutions within agreed timescales.

JUNIOR WEB DEVELOPER | THE ACCOUNTANCY FRANCHISE

06/2023 – 07/2024

- Developed and maintained business websites and web functionality using PHP, WordPress, JavaScript, HTML and CSS, delivering improvements to functionality, performance and user experience.
- Integrated websites with CRM systems and third-party services using PHP and APIs, supporting data synchronisation and business processes.
- Built features based on business requirements, investigated technical issues and provided ongoing support to users.

FULL STACK WEB DEVELOPER INTERN | SAGIT S.A.S CONSULTING DAVIDE SCIARPA

06/2018 – 07/2018

- Contributed to a web application for a hardware retailer, working on frontend functionality and application development using HTML, CSS and jQuery.
- Developed user interfaces and application features while assisting with hardware, software and operating system configuration.

ICT TECHNICIAN INTERN | EUCENTRE

06/2017 – 08/2017

- Provided first-line technical support, diagnosing and resolving hardware, software and network issues.
- Assisted with system setup, configuration and maintenance.

TECHNICAL SKILLS

- **Languages & Frameworks:** PHP, JavaScript, TypeScript, Laravel, React, React Native, Swift
- **Frontend:** HTML, CSS, Tailwind CSS, Responsive Design
- **Databases:** SQL Server, PostgreSQL
- **APIs & Integration:** REST APIs, API Integration, CRM Integration, JSON
- **Development & Tools:** Git, GitHub, Composer, npm
- **Development Practices:** OOP, MVC

PERSONAL PROJECTS

Full-Stack API Mobile Application | Laravel, PostgreSQL, React Native, TypeScript

- Built a REST API using Laravel and PostgreSQL, implementing authentication, CRUD functionality and API request handling.
- Developed a React Native and TypeScript mobile client consuming the API, using Git during development.

Developer Portfolio | React, Tailwind CSS

- Developed and deployed a responsive developer portfolio using React and Tailwind CSS.

EDUCATION

University of West London - BSc (Hons) Computer Science — **First-Class with Honours**
